## Telas

### Autenticação:

The image shows a login screen for a system named SIRIUS. The background is a light gray gradient. In the center, there is a white rounded rectangle containing the login form. At the top of this rectangle, the text "SIRIUS" is written in a large, bold, black font, with "Folha de Ponto Digital" in a smaller font below it. Below the title, the text "Bem vindo(a)!" is displayed. The form consists of two input fields: "Email" with the placeholder "seuemail@teste.com" and "Senha" with the placeholder "Senha" and a toggle icon. A blue "Entrar" button is positioned below the password field. At the bottom of the form, there is a link that says "Esqueceu a Senha?".

# Inspirações

## Bento Box UI

### [Inspiração 1](#)

The screenshot shows a user profile page for Dominique Charpentier. The layout is a Bento Box, with a sidebar on the left containing navigation items: Dashboard, People, Projects, Calendar, Training, Timesheet, Reports, Administration, and Help. The main content area is divided into several sections:

- My details:** A form with fields for Name (Dominique Charpentier), Title (CEO), Practice (Finance), Branch (Paris), Contract (Employee), Grade (MG3), Division (Moonlight - Paris), Division manager, Login (id/ceo), and Status history (Activated, 13/05/2009).
- User Profile:** A circular profile picture, the name Dominique Charpentier, and the title CEO. Below are icons for email, phone, and a menu. A secondary menu includes Calendar, Vacations, Timesheet, and Corporate CV.
- Projects:** A table with columns for Status, Project Task, Role, Task, Start date, and Capacity. It lists two projects: Project 1 (Specialist, Management, 11.06.2019, 35%) and Project 2 (Specialist, Support, 12.02.2019, 65%).

At the bottom left, there is a logo for CAMIOCA and the version number 1.0.0.11.

## Glassmorphism + Dark Mode + Minimalist UI

### Inspiração 2

O Glassmorphism juntamente com o Dark mode apresenta um bom contraste para deixar os botões e funcionalidades bem visíveis, e juntamente com o modelo Minimalista, evita a poluição visual, facilitando a navegação. Recomendado utilizar juntamente com o modelo Bento UI, pois a conciliação dessas informações divididas em "blocos" melhora ainda mais a praticidade da interface.
